

FINLANDIA HALL
EXTENSION

NEW HORIZONS FOR FINLANDIA HALL

More than 3000 square metres of new facilities for conferences, exhibitions and festivals will be opened in Finlandia Hall in the spring of 2011. The extension will consist mainly of one large space which can be divided into smaller separate facilities. It will be built facing Töölö Bay, on the eastern side of the building. The extension will enable Finlandia Hall to provide more versatile conference and exhibition space for congresses and other events.

Finlandia Hall's car parking facilities and maintenance traffic will be transferred to the new Töölö Bay Underground Car Park which will have direct access to the Hall.

The extension will also host a café, open to the public and offering eye-catching views of the verdant Finlandia Park to be constructed in the coming years.

Work on the extension will not affect Finlandia Hall's other activities.
